Show was dedicated to the adventure race organised by UNDP, which gathered local and foreign journalists. TVCG crew visited Mojkovac tourist spots, on which development of this city will rely on, and it was also talked about reclamation of Mojkovac-based tailings mine. Tailings mine of former Lead and Zinc Mine is main ecological challenge, which threatens as potential ecological catastrophe for the residents of Mojkovac, as well as for biodiversity of river Tara. The Government of Montenegro and Municipality Mojkovac are conducting plan for deposition of tailings mine and turning of location into green zone for recreation, with support of the Government of Republic Czech and the Government of the Netherlands, together with UNDP in Montenegro. Tailings mine remediation is a part of regional program for the environment protection, worth 15 million dollars, which involves 6 countries of the Western Balkan.
